Did You Know...?

To SPEED UP REVIEWS AND APPROVALS:

- **SUBMIT 30% , BID SET, AND AS-BUILT ELECTRONIC PLANS AND SPECS IN PDF FORMAT VIA THE ADOT FTP SITE.**
- **SUBMIT ALL DOCUMENTS ELECTRONICALLY IN UNSECURED PDF FORMAT TO YOUR ADOT GRANT MANAGER .**

Tentative 5 Year ACIP News

The draft program information was presented to the State Transportation Board in February. The program document was presented at the first public meeting on March 19th in Phoenix. More public meetings are scheduled for April 16th in Oro Valley, and May 21st in Sedona. The entire document (for highways and airports) ["Tentative 2011-2015 Five-Year Transportation Facilities Construction Program"](#) is posted at: http://www.azdot.gov/MPD/priority_Programming/Index.asp. If you are only interested in the airports section, go to the Aeronautics home page: <http://www.azdot.gov/aviation/index.asp>.

ADOT FTP Site

The perfect place to submit your electronic documents to ADOT for review and file records! Access the site at:

- <ftp://ftp.azdot.gov>
- I.D. is: **AERO**
- Password is: **aeroftp**
- Send a follow-up e-mail to your Grant Manager.

NEPA Note...

All grants require that the appropriate level NEPA process is followed and documented prior to design and construction. Whether you need a **CatEx**, an **EA**, or an **EIS**, the process must be complete prior to any project action. ADOT must have a copy of the federal decision for the airport to proceed with design and construction as eligible for ADOT grant reimbursement.

kpotts@azdot.gov

GOOD NEWS:

Payments started in March with approximately \$1.5 M per month scheduled through the end of this fiscal year (June). ADOT would like to thank all of the airports affected by these delays for their patience and understanding in these tough economic times.

Design/Construction

**Flagstaff-Pulliam
2009
Airport of the Year**

"Encouraging and advancing the safe and orderly development of aviation in the State of Arizona."

Please contact us with any questions; we are here to help you.

<http://www.azdot.gov/Aviation/index.asp>

Update: Despite the budget, ADOT is currently managing over 200 active grants worth just over \$44 million. Since January 2009, we have received \$7.6 million in deferred payment requests. We still have \$24 million in outstanding grant obligations not yet billed. ADOT has begun payment on deferred projects. Sponsors, send in your reimbursements!

Reminder: ALL Grant correspondence, including documents sent to the sponsor by the consultant, **MUST** contain the correct ADOT grant number & grant description. Supporting documents must be correct for payment to be made.

We want YOU to complete your SASP Update Survey!

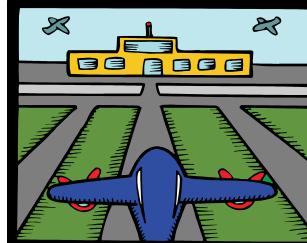

Federal Aviation Administration

Pavement Maintenance—“To Do” List

Some sponsors state “ADOT APMS does our pavement maintenance for us.” This statement is not entirely true. The ADOT APMS reports provide an inventory map, a PCI inspection, and project recommendations. However, to comply with FAA requirements and Public Law 103-305, the airports must keep the plan, implement the plan, and keep records. At a minimum, here’s what a Sponsor must do:

- Monthly inspections of pavement condition
- Keep monthly inspection records

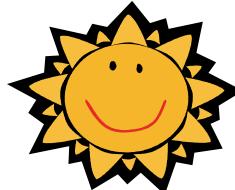

- Conduct regular maintenance activities (i.e. patch holes, seal cracks and joints, fight weeds, remove debris, grade shoulders, monitor heavy equipment, repaint markings)
- Document and report activities
- Program funding for activities

Coordination 101

New projects are coming. Some airports have new staff, too. Please make sure you coordinate all grants with all funding agencies. If you have a Federal grant with a State match, you must coordinate with ADOT as well as FAA. Contact your AGM for assistance. Refer to Grants 101, Grants 202, and the Arizona Best Practices Guide 2007 on our website.

http://www.azdot.gov/aviation/airports/dev_plan.asp

Compliance = Grant \$

The Federal Corner

ACIP projects submitted to ADOT via the web site must also be printed and mailed to FAA for federal funding consideration. Send these printed forms directly to your airport's FAA planning/program manager at: FAA, Los Angeles ADO, 15000 Aviation Blvd., Lawndale, CA 90261.

AzAA 2010 Spring Conference

We will be attending April 26-28th in Sierra Vista. Will you be there? Do you need to meet with us about a grant? For conference information visit the AzAA website link below: <http://www.azairports.org/conference.php>
